## CZAR WAS DRUGGED BY NIHILISTS

His Illness Was the Result of a Deliberate Plot.

MINNEAPOLIS, Oct. 16.—Has the czar of all the Russians been skillfully poisoned and slowly put to death by scientific means in the hands of the nihilists? Dr. George Fr. V. Schmidt, the German traveler, now in Minneapolis, has just received secret dispatches from St. Petersburg which throw a strong light on the crisis in European politics caused by the impending death of the czar. These dispatches came written in sympathetic ink on an apparently blank piece of paper. The application of heat brought out some strange stenographic characters which the doctor readily translated. He showed the dispatch to an Associated Press reporter this morning and remarked that in order to send such things from St. Petersburg it is necessary to doubly protect them by the use of sympathetic ink and a secret code. The most sensational matter in the dispatch is the intimation that the czar's illness has been caused by other than natural means.

The doctor translated the dispatch as follows: "The czar is lying at the point of death. The excitement of the highest circles of Russia is simply tremendous. It is understood in a wide circle in Russia that the czar's sickness was brought about by scientific means and that his death will not be a natural one. It is on account of this that the journals contradict the fact of the czar's sickness. There is a party that wants to set the czarowitz on the throne. The czarowitz is of a cranky, melancholy nature, is inclined to institute the most radical reforms throughout Russia, and has already made plans for such action. He is very much hated by the clergy. The patriarch of Moscow, who is at the head of the Greek church, has traveled with the czar in order to persuade him to put his second son on the throne instead of the czarowitz. The Greek Catholic church of Russia is feverishly excited. The reichsrath, or council of the empire, is daily holding secret councils. The pan-slave party are with the church and against the czarowitz, who is a great friend of Germany. Should the czar decide to place his second son upon the throne this would be looked upon as a direct insult to Germany and would be attended with most serious results."

Judge Bennett returned to Monroe this morning.

## EXPRESS OFFICE ROBBED.

Thieves Get Between \$14,000 and \$15,000 at The Dallas, Ore.

THE DALLAS, Ore., Oct. 16.—The Pacific Express company's office in this city was robbed Sunday of \$14,000 or \$15,000. The money was sent here from Portland and arrived Saturday night. F. N. Hill, express agent, and two officers took charge of the money as soon as it arrived and transferred it to the express office.

Details of the robbery are very meager. It is thought that the robbers came here on a train with the treasury box and followed it up after it arrived. They made easy work of capturing it. Charles Tibbitts, the company's driver, sleeps in the express office, but on the night of the robbery he was attending a ball and did not return until 1 o'clock. The robbery was evidently committed between 11:30 and 12:30, while Tibbitts was absent. There is no clue to the robbers.

## EX-LAND OFFICER SHORT.

Thomas D. Mead of Marquette Has Failed to Account for Funds.

MARQUETTE, Mich., Oct. 16.—The accounts of Thomas D. Mead, ex-receiver of the United States land office here, have been found short, and his bondsmen have been notified. So far the shortage is \$2,000, but an investigation will be necessary before the total amount can be known. The money was paid in during Mead's incumbency by homesteaders when making homestead entries, final proofs or commutations and was not turned over to the government or afterward accounted for. Consequently homesteaders were unable to get their receipts or patents and could not realize returns on years of privation and toil spent in perfecting their rights. Complaints from them called attention to the matter. Should his bondsmen make the defalcation good no criminal proceedings against Meads are likely to be taken. Mead's successor was Rush Culver, who recently resigned to become a democratic congressional candidate.

Belief That Mrs. Jennie Harrigan Cremated Herself and Children.

ELIJABETH, N. J., Oct. 16.—Mrs. Jennie Harrigan and her three children perished by fire in the barn upon their farm in the outskirts of this city. The residence also was burned. The husband and father was absent. The general belief is that Mrs. Harrigan became suddenly insane and set the house on fire; that she then took her children and went into the barn, and locking the door set the hay on fire. As the flames began to close around them the mother gathered the children about her and held them until they were all overcome. The eldest of the children was 6 years of age and the youngest 4 months.

## Columbian Half Dollars.

WASHINGTON, Oct. 16.—The demand for Columbian half dollars is far beyond the expectation of treasury officials. The indications now are that the supply will fall far short of the demand. ## WAR AGAIN ON AT CRIPPLE CREEK

Miners Are Marching the Streets With Rifles "Ata Carry."

DENVER, Colo., Oct. 16.—What the miners of Cripple Creek have been expecting has come to pass. Two of their number lie dead and the sheriff of El Paso county is held responsible for their death. The miners claim that for some time they have been hounded on every side by Sheriff Bowers and a lot of deputies whom he stationed in the camp for the express purpose of finding an opening that would justify him in resuming hostilities on a large scale that would admit of the use of the famous Parrott gun of two miles' range that was bought for the purpose of shooting Bull Hill miners.

Last Saturday morning the hotel at Victor was entered by two holdups who demanded the money of the gambling annex under cover of a pair of guns. They took \$300 and left the hotel. The alarm was raised, and although immediate search was instituted there was no trace of the men.

Next day James Cannon and Thomas Short were arrested for the crime and, in spite of their protestations, they were put under guard awaiting transportation to Colorado Springs.

Both men claimed to have been at Altman at the dance, accompanied by women whom they offered to produce, so that an alibi would allow their release and save them a trip to the springs where there was doubt of getting a fair hearing. Deputy Sheriff K. C. Sterling refused to listen to their statements, and even when the superintendent of the Nightingale mine testified that they were men of exemplary character and that he saw them at the dance on the night of the robbery at the same time it was reported to have occurred no attention was paid to the plea and the men were told to get ready for the springs. To them the prospect was blue. Sixty of their comrades had made the trip before them, and forty of the number were still lingering in the county jail without the prospect of a trial.

It was rumored during the night that the men were to be rescued and taken to Bull Hill, where they would be safe from the revenge of the sheriff. Accepting this as an excuse, Sterling started with his men for the Springs in a small wagon, and it is claimed by the sheriff the prisoners made an effort to escape and were both shot and killed.

There is intense excitement in Cripple Creek and there is good prospect of the whole trouble breaking out afresh. Armed men are on the streets and every face is closely scanned for the appearance of the deputies. This gives the miners the impression that they are to be the victims of an unrelenting war until they are driven from their stronghold. Over at Victor there is even a stronger feeling, as the deceased were young and steady and had taken no part in the political trouble of last summer.

## Manie Breaks Up a Meeting.

YORK, Pa., Oct. 16.—With a jug of cider in one hand and a repeating rifle in the other William Pattison, an escaped madman, entered Mount Olivet church Sunday. LITTLE ROCK, Ark., Oct. 16.—Railroad officials claim that thirteen men, armed to the teeth, had been seen between Siloam Springs and Bentonville riding toward the latter place, and it is thought they were the Cook gang, the successors of Dalton and his desperadoes. The railroad officials feel confident another train robbery will be attempted.

## OLD SETTLER GONE AFTER A LONG LIFE

LEWIS SPENCER OF EVANSVILLE CALLED.

He Settled in that Town in 1845 and Leaves Three Aged Brothers—High Creamery Mark Reached at Tiffany—Barley Thieves at Emerald Grove.

EVANSVILLE, Oct. 16.—The funeral services of Lewis Spencer, which took place from his residence in this village Sunday, were very largely attended. Rev. Schofield of the Congregational church, preached an eloquent sermon. Mr. Spencer was born at Springfield, Vt., January 20, 1820, removed to Evansville in 1845, was married in July 1848 to Miss Mary A. Newton of Rockton, Ill. This wife bore him two children; one died in infancy, the other, Lewis Jr., is a well-to-do farmer near Evansville. The first wife died in 1853, and the following year he married Eva Jones, this lady with their three children, Arthur Spencer, Mrs. Spencer Pullen and Miss Daisy Spencer, survive him. Mr. Spencer leaves three aged brothers to mourn his loss—Peter Fletcher Spencer of Evansville, aged about eighty-eight, John H. Spencer of Milwaukee, eighty six years and George F. Spencer of Evansville, aged seventy-two. Only two of the original settlers of Evansville, who were with the deceased back in the 40's can be found here, these are J. M. Evans Sr., and George F. Spencer. Lewis Spencer lived to see the evolution of a flourishing village, and thriving farming community out of what was, on his first arrival a veritable wilderness; lived to see most of his early comrades pass over to the silent majority; lived to see his family prosperous and happy, and after a long and useful life passed, without fear or trembling, to his reward. Mr. Spencer was a gentleman in the highest significance of the word. Industrious, unassuming and strictly truthful, his word never questioned, and the purity of his motives never doubted.

### HIGH CREAMERY MARK.

Eleven Thousand Pounds of Milk Received Daily—Daniel C. Rayner Dead.

TIFFANY, Oct. 16.—The creamery average dividend to its patrons on the 15th of this month is \$1.07 per hundred for milk. About 11,000 pounds is received daily, and some days it reaches 12,000 pounds. Daniel C. Rayner, who settled here in 1838 on a farm—claim it was then called—south of Tiffany, died at his home in Sioux Falls last week. The remains were buried in the Shojiere cemetery at 1 o'clock to-day. Mr. Rayner resided for many years in Janesville. There are but few now living who were his neighbors here in the early days. As a neighbor and as a man he was highly esteemed. The Shojiere mill has been repaired, and new machinery put in, placing it at the front as a custom mill, and Mr. Uhling has reason to be proud of his establishment. Mr. Maniton, in accordance with the petition sent in by his people, has been again, for the fourth year, assigned by the conference to the pastorate of the Shojiere Methodist church—a well deserved compliment to a faithful pastor. Mrs. Cordelia Chester, wife of Governor Louis P. Harvey, is now at the home of her brother-in-law, Mr. Benson, at Clinton. She is a confirmed invalid and suffering from paralysis. In her affliction she has the warm sympathies of a host of old friends who knew her in past days. Mrs. James Haggart with her sister, Mrs. Wright, have returned from their Kansas trip. There are rumors of a sorghum manufactory being established in this section another season. A D. Parker has been released from quarantine, and starts on the road again this week. A case of diphtheria caused his detention.

### REPUBLICAN SPEECH AT MILTON

Major Rockwood Awaits Great Enthusiasm—Grain Trade Has Fallen Off.

MILTON, Oct. 16.—Major Rockwood, of Portage, was welcomed by a large audience at college chapel Saturday evening. He made a convincing argument in support of his opening statement "that the democratic party is responsible for the financial and industrial paralysis that has afflicted this nation for the past nineteen months." He was interrupted by frequent applause, and at the conclusion of his remarks was tendered a hearty vote of thanks. The grain trade was not as brisk last week, and shipments aggregated only seven carloads, Fetherston shipping five of barley and one of oats. Osborn shipped a car of wheat. Market closed quiet, with no change in prices. Mrs. G. W. Emerson, who has been visiting her parents, Mr. and Mrs. Perry Sweet and other relatives, returned to her home at Cartright, Saturday. Mesdames A. D. Burdick and Will Davis of Janesville, were here Saturday. It is expected that Congressman Cooper will address the citizens of Milton, some time this month. Some farmers claim that their corn crop this year is the best they have ever grown. The democrats are industriously slogging mud, but it won't do them any good. Miss Mary Flair spent Saturday and Sunday with Janesville friends. Clem W. Crum is enjoying a month's vacation from his duties on the road and, having a new rifle is "hunting" (we use the word advisedly) squirrels now and then. The squirrel crop is short this year owing to a lack of hickory nuts and protection. Miss Luella Barnhart came up from Chicago Friday to visit her relatives. B. Barnhart and family

have not moved into this village as reported. Hon. P. M. Green visited the Milwaukee exposition Thursday. He pronounces it superior to any of its predecessors. A colored man by the name of Jones has opened a barber shop in the old meat market building. With three barbers in town there is no excuse for long hair. Robert Home shipped a carload of cattle to the Chicago market last week. They were his own feeding. Major Rockwood was the guest of W. P. Clarke and President Whitford from Saturday night until Monday. Prof. Edwin Shaw and F. E. Whitford represented the Seventh-Day Baptists at the state association of the Y. P. S. C. E. at Oshkosh. The former was elected as one of the vice presidents.

## SOLDIER AND A MAN IS HON. H. C. PUTNAM

ROCK COUNTY'S STRONG SENATORIAL CANDIDATE.

Rode Through the War on a Cavalry Horse and Has Served His Fellow Citizens in Various Public Capacities Ever Since—Experience as an Assemblyman Valuable.

The man who will represent Janesville and Rock county in the state senate after next November is Henry Clay Putnam of Brodhead; a soldier, a scholar and a man. His name sug-

H.C. PUTNAM

gests the memory of brainy and brave men who in the olden times did just as Mr. Putnam is now doing. Henry Clay served his country in a legislative way; General Putnam fought for it, while the present Putnam did both. He was born in Newark, Ohio, in 1847 and came to Wisconsin in 1849 and settled in Decatur, Green county, which township has since been his home. He received a common school education and at the tender age of sixteen years he took up arms in behalf of his country by enlisting in Company B. of the First Wisconsin Cavalry as a private. He was actively engaged in the campaign against General Longstreet's army in East Tennessee and fought in the battles of Mossy Creek, and Dunderidge as well as in all the battles during Sherman's Atlanta campaign up to July 1, 1864. At that time he was put on detached service with the troops that drove Wheeler and Forrest from Tennessee and was engaged with his regiment in that last raid of the war, that of Wilson from the Tennessee river to Macon, Georgia, participating in the engagements at Montgomery, Selma, Columbus and West Point, Georgia, which last place was captured with many prisoners.

### Served in the Assembly.

Returning home he was a commercial traveler for nine years and at present is engaged in the lumber trade and farming. On several occasions Mr. Putnam has been honored by his fellow citizens, with public office. During the year 1883 and 4 he was the president of the village of Brodhead, and in 1890 he was elected to the assembly from the district composed of the north half of Green county, and in 1892 he was re-elected from the new district, which embraced the county. His popularity and efficiency was shown by the fact that he defeated three opponents and secured 2,226 votes to 2,061 for Gilbert Hodge democrat, 411 for Frank T. Smock, people's party and 357 for William Smiley, prohibitionist. He has the same contest against him this year in his contest for the higher legislative body, his opponents being a democrat, prohibitionist and populist.

"The democrats told me," he said, "that they were going to fuse with the populists against me and knock me out. I told them that I wanted them to do it. I proposed that they should nominate a man to be supported by the democrats, prohibitionists and populists. If they would do this, I offered to bet them \$1,000 that I would beat him 1,000 votes." Mr. Putnam is a stirring politician, and his majority will be a large one, for his ability and worth are recognized by all thinking men who know him. Vote for H. C. Putnam; there is no better man in the district.

## WHY NOT BE STRONG.

Do You Know What That Weakness Means?

There is a Limit to Your Endurance. Have You Reached it?

Beware of the Last Straw! It Will Come Like a Shock.

Shakespeare says: "When sorrows come, they come not single spies but in battalions." How true this is of disease. How surely will over-work lead to nervousness, headache, nervous exhaustion, prostration, paralysis and the most terrible nervous diseases.

Bad blood causes humors, stomach, liver and kidney complaints, rheumatism, bad complexion, tumors and all kinds of blood diseases. That tired feeling means exhaustion of the nerves and vital forces—it kills. If the liver is torpid, constipation follows. This clogs the circulation and causes congestion of all the organs.

You must stop these complaints right where they are, if you value your life. The way to do it is to take Dr. Greene's Nervura blood and nerve remedy. It cures disease and makes you well.

MISS ROSE MCCARTHY.

The popular Miss Rose McCarthy, of 347 East 87 street, New York city, writes:

"For a long time I was troubled with nervousness and violent headaches. I would lie awake nearly all night and was in constant misery. Previous to this my complexion was a very healthy color, but it now became very bad."

"I took three bottles of Dr. Greene's Nervura blood and nerve remedy and was entirely cured. My nervousness and headache left me, my good complexion returned and I slept perfectly. I can safely say to everybody who is suffering, just give it a trial and you will be cured. I hope my statement will find relief for many people who do not know the benefit of such a wonderful medicine."

Dr. Greene's Nervura blood and nerve remedy strikes disease like the lightning's flash, which nothing can resist, and where it strikes it cures. Put it to the test in your own case and see how quickly health and strength will be yours.

Physicians recommend it because it is the discovery of the most successful specialist in curing nervous and chronic diseases. Dr. Greene, of 35 West 14th Street, New York City. You can consult him free, personally or by letter.

### NEW HOSE WAGON IS A MODEL.

Janesville Department Seven \$250 and Gets a Fine Piece of Workmanship.

The Janesville Carriage Works has just completed for the Janesville fire department one of the handsomest hose wagons in the country. Besides being handsome it is a durable vehicle. The new wagon will be put in service next week, relieving the old carriages.

The fire department on a number of occasions has been greatly retarded in getting more than two or three streams on a fire, the officers being compelled to detail men of the regular force to return to the stations for additional hose, which had to be loaded on wagons in coils, and unloaded when brought into use at the fire. This wagon obviates all such delays. It carries one thousand feet of hose, two fire extinguishers, the usual pipes, etc., one of the "deluge" sets and has room for six men. The wagon, without its load will weigh about two thousand pounds. The iron work is all extra heavy, with two-inch axles and Archibald wheels, two-inch spokes, heavy steel tires.

"This is the strongest and handsomest wagon we ever built," remarked Superintendent Herman Buchholz as the wagon was pulled out of the paint shop on Saturday. "I feel proud of it. It will stand a collision with a locomotive."

The wagon is as handsome as it is substantial. The body is dark blue, with gold striping. The running gear is a bright vermilion, with gold striping. All polished work is brass, including the rails, lanterns and holders, the only nickel plate being the large gong. The wagon is not unlike those in use in Milwaukee and Chicago, except that fire extinguishers are carried and the side foot boards are omitted, a board mud-fender running the entire length of the box. While this wagon is far handsomer and probably stronger than those made in the east, it is also \$250 cheaper. The Janesville Carriage Works is making a specialty of hose and patrol wagons and is achieving marked success.

COMPLETE your sets of World's fair views. Memories of the great exposition are treasures to be guarded jealously, and in no way can they be recalled as vividly as by well-executed pictures. Call at the Gazette office for Shepp's series. A few complete sets may still be had.

## CHANGED THE DATE OF A CONVENTION

REPUBLICAN ASSEMBLY CANDIDATE NAMED TOMORROW

The Nomination Papers Must Be Filed With the Secretary of State at Madison On or Before Wednesday October 17, Which Makes the Altered Arrangement Necessary.

The republican assembly convention for the Third district will be held at the council chamber at 1 o'clock p. m. tomorrow instead of on Thursday. This change is made necessary by the fact that all nominations for state, congressional, senatorial and assembly offices must be filed in the office of the secretary of state on or before Wednesday, October 17, in order that they may appear in the official ballot. All the parties have filed the names of their nominees for the state offices, but as yet many nominees for senatorial and assembly offices have not observed this due legal formality. This is especially true of the republican nominees, and the acting chairman at these various conventions will have to see that the nominations are filed immediately. The democratic state officers have been sending telegrams and prodding their brethren along this line and the republicans must be quick if they wish to have the names of all their respective nominees appear on the official ballots. The new call for the assembly convention appears on the editorial page.

### PLAN TO HELP THE SICK AND POOR.

Associated Charities Appeal to the People For Supplies.

The Associated Charities made plans for the winter's work at the meeting held yesterday. It was ascertained that they had but little clothing or money with which to aid the needy, and they decided to make this appeal to the generous public, who have never failed to supply them with such things as they need. They ask for money and bedding, as well as clothing for both old and young.

A collector will call on you soon for annual dues, and it is hoped he will meet with a liberal response, as we have a long winter before us and so many out of employment, the calls upon them must be necessarily heavy. Clothing and bedding can be left at their rooms in the Jackson block or at Stevens' drug store or the Carrington's office.

### NEW NAME FOR MARY STREET.

Too Much Confusion from the Parallels in Local Nomenclature.

Property owners residing on Mary street up in the Second ward have filed a petition in the city clerk's office asking the common council to change the street name, as it is now misleading on account of its close proximity to St. Mary's avenue. The petitioners suggest the old Spanish name of "Yuba" street. The council may, if the committee on highways, streets and bridges remember Mark Twain, recommend an affix and order that the street signs be changed to "Yuba" dam."

"I know it," said the lady, "for I've churned it in my churn, but I wanted to see you get that other two pounds." There was no sale.

## Sandwich Soldiers.

An ingenious Belgian has constructed a double bullet-proof cuirass to protect both front and back, and his idea is that in times of peace it should be employed as a pair of sandwich boards and worn by the soldiers. In this way much revenue would come to the army, and the forces would be kept out of mischief.

## Ringless Curtain Pole.

In the ringless curtain pole made by an English firm there is an undercut groove in the under side of the pole, in which work a set of metal eyes, which hang out of the opening of the groove, and roll in it on small rollers working in the undercut portion of the groove. It is ingenious and simple, and certainly seems likely to work more smoothly than the ordinary curtain ring.

## TAUGHT HIM THE MANLY ART.

How a Thin-Legged, Narrow-Chested Boy Surprised His Assaultants.

A well-known Philadelphian, who in his youth was given a little to sport, has a particularly fine boy who is very spirited. At school he suffered very much up to a few months ago from bigger boys, who abused and "pounded" him. Enjoining the lad to the strictest secrecy, the father employed a retired pugilist, a little bit of a fellow, and had him give the boy lessons several times a week in boxing. At odd moments he practiced with the boy himself. Finally the lad, with that assurance and sense of prowess which comes under such circumstances, wanted to be loose, but the father held him back until he felt perfectly satisfied. Not long ago he told his son to go ahead. An opportunity soon presented itself, and it would be hard to describe the sensation that followed when the young whipper snapper who had been taking thumps for a year or two sailed in and laid out completely two of the biggest bullies and braggarts in the school.

## POINTS OF VIEW.

Frances, three and a half years, received her first ocean bath at the beach, and, having the family bath tub as her gauge of measurement, she said to her papa when he had brought her into the surf up to her neck: "O-o-o-h, papa, papa, take me out, quick! It's too full."

A distinguished golfer, famous for his erudition, was one day playing a wretched game, and in his humiliation he turned to his "caddie" and exclaimed: "How is it that I, a man acquainted with all the arts and sciences and the dead and living languages, can not play this confounded game of golf?" "Weel, sir," said the "caddie," "it's jist this—ye may ken a' about they sma' affairs an' wi' things connectit wi' them, but ye maun understan' that it tak's a heid to play gowf."

## VALUABLE REMEDY.

Sinhaling Cologne Water Will Chase Asthma, so It is Said.

Attacks of asthma may be brought on by the most varied and singular causes; different sorts of scents, the odor of raspberries, as was the case of Claude Bernard; the smell of hay, the vapor of a sulphur match that has just been lighted, the dust from oats or powdered ipecacuanha. One patient will have asthma in the North, but will be free from it in the South; another will have asthma in Paris, but will be perfectly well in Vienna; still another will have the most terrible attacks as long as he is in Egypt, but will be relieved as soon as he gets to sea.

It is generally admitted nowadays that the attack of asthma is due to a spasm of the inspiratory muscles, and that the origin of the trouble is some stimulation of the nasal mucous membrane. On the other hand it is also known that a vigorous stimulation of the mucous membrane of the nose may put an end to an attack of asthma; therefore in this purely nervous phenomenon the same cause may either bring on or put an end to the attack.

It is on this peculiarity that are based a certain number of methods of treatment of an attack of asthma, and the latest born of these methods consists in sniffing eau de cologne. My readers may remember that I made known to them the process whereby M. Roux of Lyons cuts short colds in the head and chest at their beginning. It consists in having the patients inhale by the mouth and nose for about two minutes and about four or five times a day about fifty drops of cologne water. It is now claimed that the same method will put an end to an attack of asthma.

## A BICYCLE BAND.

French Musicians Appear on the Streets Riding Wheels.

In Paris there are merry-go-rounds with bicycles attached, where the tyro can learn all the movements of cycling without falling off. One evening a band of forty musicians, returning home from a wedding dinner for which they had furnished the music, came upon such a merry-go-round and climbed into it.

As they had all been imbibing freely of the generous wines furnished at the wedding feast, nothing seemed to them more natural than to improvise a serenade as they whirled round and round.

The cornet went home with a terrible headache, and the bassoon dreamed that he was being sucked down into the maelstrom. But a few days afterward the leader convened the musicians and informed them that he

intended to found "the bicycle band."

The result was that in a few weeks the Fanfare-Cycle, forty players on wind and string instruments, mounted on "bikes" of artistic mechanism, began to appear on the streets of Paris, and to spin merrily along the wide boulevards to the inspiring notes of the overture to "William Tell" or the martial melodies of the French military music.

At first they confined themselves to the exterior boulevards, fearing the comments of the great throngs which gathered on the central avenues of Paris. But gradually they became bolder, and now one often sees them, formed by fours, majestically skimming the noiseless pavements from the Madeleine to the Bastille.

## Nothing Wasted in Paris.

Even the smallest scrap of paper, that which every one throws away here, becomes a source of profit. Old provision tins, for instance, are full of money; the lead soldering is removed and melted down into cakes, while the tin goes to make children's toys. Old boots, however bad, always contain in the arch of the foot at least one sound piece that will serve again, and generally there are two or three others in the sole, the heel, and at the back. Scraps of paper go to the cardboard factory, orange peel to the marmalade maker, and so on. The most valuable refuse—that which fetches two francs the kilo—is hair; the long goes to the hair dresser, while the short is used, among other things, for clarifying oils.

## A Dogs' Cemetery.

The Englishman's abiding affection for his four-footed friends receives another illustration in Hyde park, the holy of holies of the London park system, is to be found a dog cemetery. It adjoins the parkkeeper's lodge at Victoria gate, and contains at present about eighty graves. The cemetery appears to be a private speculation of the keeper, who takes the fees, provides the tombstones and performs the duties of a sexton. The ordinary charge for an interment is five shillings; the monuments of course, vary. The keeper shows one which is said to have cost five pounds. The duke of Cambridge has two dogs buried there, and he seems to have started this public institution.

## BORNE TO THE LAND OF REST.

Samuel C. VanGelder.

Samuel C. VanGelder who died at his home in LaPrairie, on Tuesday evening was fifty-nine years old and six months of age. He was born in Niagara County, New York, and came to Wisconsin in 1852 with his parents, locating on the farm which has been for over forty years his home. In 1858 he was united in marriage to Miss Eliza Heald. Of their nine children, five are living. Mr. VanGelder was a man of character and force, energetic, industrious and generous. In all matters pertaining to the welfare of and advancement of the community in which he lived he was equally free with his purse and his time. His friendships and affections were strong, and drew to him warm friends. In trouble or affliction he was always ready to "lend a hand," and his family possessed in him a loving husband and father, while his neighbors found him always a helpful and sympathizing friend.

In all public matters he took a deep interest, and was conscientious in the discharge of all trusts confided to him. During his last days he at times suffered intensely from pain, but retained his consciousness to the last, in his last hours naming from among his old friends, those whom he desired should bear him to the grave. Rev. Mr. Maniton conducted the funeral services which were held on the 11th, and he was laid to rest among the children sleeping in the Turtleville cemetery.

## An Ample Fund of Pleasure and Health

May be derived from an ocean voyage and foreign travel. But before one gets one's "sea legs" on, as the sailor says, the abominable ailments, begotten of sea sickness, have usually to be gotten over. Delicate people suffer, of course, more than the robust in the gastric region from sea travelers escape it. Against the frightful nausea it induces, Hostetter's Stomach Bitters is a reliable defence, and is so esteemed by tourists, commercial travelers, yachtsmen and mariners. An ailment akin to sea sickness often afflicts land travelers with weak stomachs. This is often brought on by the jarring of a railway train. Disquietude in the gastric region from this cause is always remedied by the Bitters, which also prevents and cures chills and fever, rheumatism, nervous and kidney trouble, constipation and biliousness.

## OLD COUNTY HOUSE GOES UP IN SMOKE

FIRE DID COMPLETE WORK  
AT JOHNSTOWN.

First Discovered In the Unoccupied North End of the Building at 5 O'clock this Morning and Swept all Before it—Nothing Saved But a Small Storehouse.

A thing that made Rock county people hold their breath when the thought of it occurred this morning, when the old county poor house and insane asylum at Johnstown, burned to the ground.

The loss is complete.

The fire was first discovered at 5 o'clock this morning, and nothing could be done to check it. That it was of incendiary origin, can hardly be doubted, as the fire started in the north end, where there had been no stove and no lights. The new owner, Mr. McFarlane, had moved in just a week ago, but his rooms were not in the vicinity of the fire. All of the main buildings were leveled completely, and only the small storehouse remains on the south side of the road. What would have happened had the fire started in the night, while the buildings were occupied, is now shown by the speed with which the fire ate through the tinder-like walls.

An immense rambling structure was the development of the original poor house, that the county built way back before the war. Since then addition after addition has been built until the old building and wings, and separate additions covered a good deal of ground on the side hill north of the road. The original building was a three-story frame structure with a wide veranda, but in later years two separate additions for the male and female insane had been built, both being two-story frame structures.

Hort's "A Bunch of Keys" pleased a large audience at the Myers Grand last night and that very laughable farce comedy was well put on. Clever singing and dancing enlivened the play and capable comedians kept the audience laughing from start to finish. Harry Roy, as Jonas Grimes the bell boy is the star of the aggregation and his work was largely responsible for the merriment.

## COURT MAY SETTLE THE WATER FIGHT

COUNCIL COMMITTEE TAKE  
THE FIRST STEP.

M. G. Jeffris Has Been Solicited to Help City Attorney McElroy in the Proceedings to Annul the Franchise—Result Will be Watched With Interest By Consumers.

The question of annulling the water company's franchise is now in a fair way to be settled in the courts. This course will be taken by the committee on fire and water, under instructions of the common council. The answer of the water company, placing the cost of the water plant at \$460,000, so staggered the members of the common council that they at once by unanimous vote declared the statement false and fraudulent, and instructed the committee to take steps to annul the franchise. The committee held a meeting last night and decided to employ counsel to assist the city attorney in the court proceedings. M. G. Jeffris, of the law firm of Fethers, Jeffris, Fiffeld & Matheson will be so employed. Proceedings will be commenced without delay, and the result will be watched with great interest by Janesville people, as the action, so far as it relates to a water company, is without precedent.

The council, at the time they made a demand of the company for the construction cost of the plant, was in favor of purchasing it, and were in possession of reliable information that the cost of construction did not exceed \$160,000, if it equaled that amount; consequently when the grand total cost was announced under sworn statements, at \$460,000, the aldermen, including the mayor, nearly fell out of their chairs, but recovered in time to declare the statement false and fraudulent.

Water consumers who have been registering complaints of arbitrary rulings, take interest in the proceedings, as they are assured now that the committee will make a test of some rules, thus relieving the consumers of the cost.

Mr. Maxey, the manager of the company, resides in Oshkosh, and is reported sick, consequently he has not been heard from. However, a gentleman, closely connected with him, is of the opinion that the legal proceedings will amount to nothing, except in the fees for the attorneys.

"I can't see what the city is after," said he. "Perhaps they would like to have Maxey come down here and give them the plant."

Mr. Jeffris is absent from the city, and probably will not return home before Saturday, and nothing further will be done in prosecuting the case until he is consulted.

CITY SHOULD HELP THE HOSPITAL.

That is the sentiment of Many People—Receipts and Disbursements.

Many people are in hopes that some change can be made whereby the Oak Lawn hospital can receive help from the city funds. This spirit was plainly shown at the meeting of the association held Saturday evening. President Valentine being absent W. T. Vankirk acted as chairman and the vacancy caused by the resignation of H. F. Bliss as a director was filled by the election of George M. McKey. Below is given the receipts and expenditures, and also a schedule showing the number of patients admitted and discharged the last quarter:

Also Says in a Milwaukee Interview that He Likes Janesville.

Dr. Sabin Halsey of Court Street church went to Milwaukee on his way to South Bristol, Wis., where he will officiate today at noon at the wedding of Herbert W. Ward of West Superior and Miss Belle Schuartz of Berea, O.

"I have not had nearly half so many weddings since I took the Court Street charge," Dr. Halsey said to a Sentinel man, "but I am charmed with the people of my community and in fact with the people of Janesville generally and with the town. I find it an excellent city. I expect to perform several more weddings in Milwaukee, one of which will take place next week in Grand Avenue church. I shall officiate at these marriages because I promised members of my old flock at the Grand Avenue church to do so."

NEW BOOK FOR THE ST. PAUL.

The Most Complete Publication of the Kind Yet Sent Out.

The St. Paul road has issued the most compact and complete book of rules and instructions ever used by a railroad. It is for the particular use of agents of the road, and is their bible in everything pertaining to their duties. It covers every known case of routine or emergency business, and insures the proper conduct of the company's business. With each book is a circular letter from President Miller in which he says, among other things:

"You are the representative in your town of the Chicago, Milwaukee & St. Paul Railway company and through you the business of the company with its patrons is conducted. Your position is one of responsibility, since in the great majority of cases as much business is done over your counter as over the counter of any merchant in your town. You are engaged in selling a commodity, namely transportation, and like all merchants' business methods are necessary to your success. Whether your station be large or small, your duties arduous or otherwise, such methods are equally necessary. You cannot succeed nor do the company justice, especially if your station is competitive, unless you are active, industrious and courteous, any more than a merchant can who lacks these qualities. If there be no competition at your station precisely the same qualifications are necessary for the same reasons and because the company desires to treat those who cannot buy transportation of any other company precisely as well as it does those who can; for an idle, thriftless or uncivil merchant invites the establishment of a rival store, so you may do much to convince the people of your town that they are better off with one good railway and one good agent than they would be with more."

DOE WROTE HIS OWN ORDER

The Cincinnati Commercial Gazette Gives Him a Flogging.

Wisconsin papers are not the only ones who are giving General Doe a prod now and then. A Washington dispatch to the Cincinnati Commercial Gazette says, that the general is taking a junket through the west.

"Now Doe was adjutant-general under Governor Peck of Wisconsin, and, being Peck's bad boy, it was determined that the administration should take care of him," says the dispatch. "Doe knew nothing about military affairs, although he was dubbed general, but he was appointed to please Senator Vilas, the cuckoo. It had been at first determined to appoint Mr. Uhl, who is now assistant secretary of state, but he declined and Doe got the job. Well, Doe is running around the west drawing eight cents a mile and traveling at Uncle Sam's expense, accompanied by Captain Barry as aid in inspecting troops that need no inspection, and fooling around, the government paying all expenses, pretending to be preparing to make a report. He is simply junketing and doing no good. He is traveling under an order which he himself issued when acting as secretary of war during one of Secretary Lamont's many absences. This is given as another evidence of democratic economy."

## COUNTY FARM SALE MIXED UP BY FIRE

THE COUNTY HAD \$10,000 IN  
SURANCE.

Purchaser McFarlane Had Not Paid All the Money and the Policies Were Not Transferred So Either He or the County Will Gain; But Which?

The burning of the buildings on the old county farm at Johnstown this morning, complicates the county in a novel way for ten thousand dollars.

Last fall the county placed ten thousand dollars insurance on the buildings, but in May last the buildings being vacated, the policies became void, although the insurance was for the term of three years. The buildings remained vacant until three weeks ago, when Mr. McFarlane, the purchaser of the farm, took possession with his family. This act, it is claimed, revived the insurance.

Mr. McFarlane had not paid the purchase price, \$10,800, though had paid \$300 on a contract, the deed and purchase money to be transferred on October 27. The insurance is still held by the county, and it involves nearly every insurance agency in the county.

The case is a novel one, in that the county contracted to sell, the entire farm, including the buildings for the sum of \$10,800 and at the same time held fire insurance policies to the amount of \$10,000 on the buildings, which now become due the county. Should McFarlane now fail to make payment, as the contract calls, forfeiting his \$300 already paid, the county will be within three hundred dollars ahead, with the farm on hand.

Again, the question is raised, will the county be compelled to restore the buildings, in order to make the transfer of the property on October 27? Had McFarlane paid the sum stipulated, receiving his deed and the transfer of the insurance, he would have been today a farm ahead of his bargain.

## A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows: "Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies."—Solomon Yewell, Marion, Ind., Dec. 5, 1892. These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. They positively contain neither opiates nor dangerous drugs.

A model farm of 800 acres, 60 miles west of Quincy, Ill., in the Great Blue Grass Region of Northern Missouri, lying three miles from the Hannibal & St. Joe and Santa Fe railways. On this farm are \$11,000 in new buildings fine barns and sheds for stock, the house cost \$5,000 four years ago. Missouri is one of the best farming states, and here the soil, timber, grasses, water, fruit, climate and natural advantages are not excelled anywhere in the union. Dr. St. John resides in northern Missouri; Dr. Loomis just traveled through it and says the country and crops are fine. Will sell for what land is worth and throw in the buildings, and take a small farm in Wisconsin as part pay. This is a bargain in some man must have.

## "OARSMEN DEFEATED" TALMAGE'S SUBJECT

BRINGING SOULS TO THE SHORE  
OF SAFETY.

A Sermon from Jonah 1: xiii, xiv: "The Men Rowed Hard to Bring It to the Land, but Could Not, Wherefore They Cried Unto the Lord."

BROOKLYN, Oct. 14.—Rev. Dr. Talmage, who is still absent on his round-the-world tour, has selected as the subject of to-day's sermon, through the press: "The Oarsmen Defeated."

Navigation in the Mediterranean sea always was perilous, especially so in early times. Vessels were propelled partly by sail and partly by oar. When, by reason of great stress of weather, it was necessary to reef the canvas or haul it in, then the vessel was entirely dependent upon the oars, sometimes twenty or thirty of them on either side the vessel. You would not venture outside your harbor with such a craft as my text finds Jonah sailing in; but he had not much choice of vessels. He was running away from the Lord; and when a man is running away from the Lord, he has to run very fast.

God had told Jonah to go to Nineveh to preach about the destruction of that city. Jonah disobeyed. That always makes rough water, whether in the Mediterranean or the Atlantic, or the Pacific, or the Caspian sea. It is a very hard thing to scare sailors. I have seen them, when the brow of the vessel was almost under water, and they were walking the deck knee-deep in the surf, and the small boats by the side of the vessel had been crushed as small as kindling wood, whistling as though nothing had happened; but the Bible says that these mariners of whom I speak were frightened. That which sailors call "a lump of a sea" had become a blinding, deafening, swamping fury. How mad the wind can get at the water, and the water can get at the wind, you do not know unless you have been spectators. I have in my house a piece of a sail of a ship, no larger than the palm of my hand. That piece of canvas was all that was left of the largest sail of the ship Greece that went into the storm 200 miles off Newfoundland. Oh, what a night that was! I suppose it was in some such storm as this that Jonah was caught.

He knew that the tempest was on his account, and he asked the sailors to throw him overboard. Sailors are a generous hearted race, and they resolved to make their escape, if possible, without resorting to such extreme measures. The sails are of no use, and so they lay hold on their oars. I see the long bank of shining blades on either side of the vessel. Oh! how they did pull, the bronzed seamen, as they laid back into the oars. But rowing on the sea is very different from rowing upon a river; and as the vessel hoists, the oars skip the wave and miss the stroke, and the tempest laughs to scorn the flying paddles. It is of no use, no use. There comes a wave that crashes the last mast, and sweeps the oarsmen from their places, and tumbles everything in the confusion of impending shipwreck, or, as my text has it, "The men rowed hard to bring it to the land; but they could not; wherefore they cried unto the Lord."

This scene is very suggestive to me, and I pray God I may have grace and strength enough to represent it intelligently to you. Years ago I preached a sermon on another phase of this very subject, and I got a letter from Houston, Texas, the writer saying that the reading of that sermon in London had led him to God. And I received another letter from South Australia, saying that the reading of that sermon in Australia had brought several souls to Christ. And then, I thought, why not take another phase of the same subject, for perhaps that God who can raise in power that which is sown in weakness may now, through another phase of the same subject, bring salvation to the people who shall hear and salvation to the people who shall read. Men and women, who know how to pray, lay hold of the Lord God Almighty and wrestle for the blessing.

Bishop Latimer would stop sometimes in the midst of his argument, and say, "Now, I will tell you a fable;" and to-day I would like to bring the scene of the text as an illustration of a most important religious truth. As those Mediterranean oarsmen trying to bring Jonah ashore, were discomfited, I have to tell you that they were not the only men who have broken down on their paddles, and have been obliged to call on the Lord for help. I want to say that the unavailing efforts of those Mediterranean oarsmen have a counterpart in the efforts we are making to bring souls to the shore of safety and set their feet on the Rock of Ages. You have a father, or mother, or husband, or wife, or child, or near friend, who is not a Christian. There have been times when you have been in agony about their salvation. A minister of Christ, whose wife was dying without any hope in Jesus, walked the floor, wrung his hands, cried bitterly, and said, "I believe I shall go insane, for I know she is not prepared to meet God." And there may have been days of sickness in your household, when you feared it would be a fatal sickness; and how closely you examined the face of the doctor as he came in and scrutinized the patient, and left the pulse, and you followed him into the next room, and said, "There isn't any danger, is there, doctor?" And the hesitation and the uncertainty of the reply made two eternities flash before your vision. And then you went and talked to the sick one about the great future. Oh, there are those here who have tried to bring their friends to God. They have been unable to bring them to the shore of safety. They are no nearer that point than they were twenty years

ago. You think you have got them almost to the shore, when you are swept back again. What shall you do? Put down the oar? Oh, no! I do not advise that; but I do advise that you appeal to that God to whom the Mediterranean oarsmen appealed—the God who could silence the tempest and bring the ship in safety to the port. I tell you, my friends, that there has got to be a good deal of praying before our families are brought to Christ. Ah! it is an awful thing to have half a household on one side the line, and the other part the household on the other side of the line. Two vessels part on the ocean of eternity, one going to the right and the other to the left—farther apart, and farther apart—until the signals cease to be recognized, and there are only two specks on the horizon, and then they are lost to sight forever!

I have to tell you that the unavailing efforts of these Mediterranean oarsmen have a counterpart in the efforts some of us are making to bring our children to the shore of safety. There never were so many temptations for young people as there are now. The literary and the social influence seem to be against their spiritual interests. Christ seems to be driven almost entirely from the school and the pleasurable converse, yet God knows how anxious we are of our children. We can not think of going into heaven without them. We do not want to leave this life while they are tossing on the waves of temptation and away from God. From which of them could we consent to be eternally separated? Would it be the son? Would it be the daughter? Would it be the eldest? Would it be the youngest? Would it be the one that is well and stout, or the one that is sick? Oh, I hear some parent saying to-night, "I have tried my best to bring my children to Christ. I have laid hold of the oars until they bent in my grasp, and I have braced myself against the ribs of the boat, and I have pulled for their eternal rescue; but I can't get them to Christ." Then I ask you to imitate the men of the text, and cry mightily unto God. We want more importunate praying for children, such as the father indulged in when he had tried to bring his six sons to Christ, and they had wandered off into dissipation. Then he got down in his prayers, and said, "O, God! take away my life, if through that means my sons may repent and be brought to Christ;" and the Lord startlingly answered the prayer, and in a few weeks the father was taken away, and through the solemnity the six sons fled unto God. Oh, that father could afford to die for the eternal welfare of his children! He rowed hard to bring them to the land, but could not, and then he cried unto the Lord.

I wish I could put before my unpardoned readers, their own helplessness. No human arm was ever strong enough to unlock the door of heaven. No foot was ever mighty enough to break the shackles of sin. No oarsman swarthy enough to tow himself into God's harbor. The wind is against you. The tide is against you. The law is against you. Ten thousand corrupting influences are against you. Helpless and undone. Not so helpless a sailor on his plank, mid-Atlantic. Not so helpless a traveler girded by twenty miles of prairie on fire. Prove it to you say. I will prove it. John vi: 44: "No man can come to me, except the Father which hath sent me draw him."

But while I have shown your helplessness, I want to put by the side of it the power and willingness of Christ to save you. I think it was in 1686 a vessel was bound for Portugal, but it was driven to pieces on an unfriendly coast. The captain had his son with him, and with the crew they wandered up the beach, and started on the long journey to find relief. After awhile the son fainted by reason of hunger and the length of the way. The captain said to the crew, "Carry my boy for me on your shoulders." They carried him on; but the journey was long, that after awhile the crew fainted from hunger and from weariness, and could carry him no longer. Then the father rallied his almost wasted energy, and took up his own boy, and put him on his shoulder, and carried him on mile after mile, mile after mile, until, overcome himself by hunger and weariness, he too fainted by the way. The boy lay down and died, and the father, just at the time rescue came to him, also perished, living only long enough to tell the story—sad story, indeed! But glory be to God that Jesus Christ is able to take us up out of our shipwrecked and dying condition, and put us on the shoulder of his strength, and by the omnipotence of his gospel bear us on through all the journey of this life, and at last through the opening gates of heaven! He is mighty to save. Though your sin be long and black, and inexcusable, and outrageous, the very moment you believe I will proclaim pardon—quick, full, grand, unconditional, uncompromising, illimitable, infinite. Oh, the grace of God! I am overwhelmed when I come to think of it. Give me a thousand ladders, lashed fast to each other, that I may scale the height. Let the line run out with the anchor until all the cables of the earth are exhausted, that we may touch the depth. Let the angel fly in circuit of eternal ages, in trying to sweep around this theme. Oh, the grace of God! It is so high. It is so broad. It is so deep. Glory be to my God, that where man's arm gives out, God's arm begins! Why will ye carry your sins and your sorrows any longer when Christ offers to take them? Why will you wrestle down your fears when this moment you might give up and be saved. Do you not know that everything is ready?

Plenty of room at the feast. Jesus has the ring of his love all ready to put upon your hand. Come now and sit down, ye hungry ones, at the banquet. Ye who are in rags of sin, take the

This we have done through our superior facilities. From this policy we have never swerved nor wavered, and those who deal with us realize that as we added each new department they have been enabled to buy the goods lower than ever before, because our first aim has been to get prices down to a legitimate basis and the assortments larger and more complete than any other. Our store is three hundred and sixty-five times better than it was a year ago, every day has been devoted to in proving our stocks, our system and our service, and every day will continue to be devoted to improving. We never under any circumstances make exaggerated statements, and our advertisements are always fully sustained by the goods shown—a fact easily verified by investigating those offered to-day.

robe of Christ. Ye who are swamped by the breakers around you, cry to Christ to pilot you into smooth, still waters. On account of the peculiar phase of the subject, I have drawn my present illustrations, you see, chiefly, from the water. I remember that a vessel went to pieces on the Bermudas a great many years ago. It had a vast treasure on board. But the vessel being sunk, no effort was made to raise it. After many years had passed, a company of adventurers went out from England, and after a long voyage they reached the place where the vessel was said to have sunk. They got into a small boat and hovered over the place. Then the divers went down, and they broke through what looked like a limestone covering, and the treasures rolled out—what was found afterward to be, in American money, worth \$1,500,000, and the foundation of a great business house. At that time the whole world rejoiced over what was called the luck of these adventurers. Oh, ye who have been rowing toward the shore, and have not been able to reach it, I want to tell you to-night that your boat hovers over infinite treasure! All the riches of God are at your feet. Treasures that never fail, and crowns that never grow dim. Who will go down now and seek them? Who will dive for the pearl of great price? Who will be prepared for life, for death, for judgment, for the long eternity? See two hands of blood stretched out toward thy soul, as Jesus says, "Come unto me, all ye that labor and are heavy laden, and I will give you rest."
